

Intern for Website Management/Sales wanted!

We are a startup validating and testing business ideas using dynamic landing pages. For assisting the product development, sales and marketing teams we are currently looking for 2 interns, who will work closely with these teams to design, implement, and analyze all product experiments and who would be responsible for implementing changes to our landing pages/website on a weekly basis.

Job description:

- consistent email follow-up and management of new leads coming in
- build and update landing pages/wordpress website, updating changes on a weekly basis
- Utilize multiple analytics webtools to report on user engagement
- Define key metrics to track and improve product experiments
- Likely learn other webtools

Professional experiences and competences:

- use of wordpress
- knowledge in pipedrive
- potentially others
(Shopify, Stripe, hotjar, google analytics)

Duration:

3 months with possibility for extension depending on performance (start asap)

Payment:

Freier Dienstnehmervertrag on basis Geringfügigkeit (€ 446,00)
